About Me

I'm a passionate software developer, geek and tech lover with 4+ years of professional iOS development experience. My code is present in the *beating heart* of more than 6 apps in the App Stores. One of them – indoona – has more than 1,5 million users and in 2013 it reached the first position the Italian Free Apps category.

Technical Skills

Objective-C, C, Java, Git, SVN, XMPP, WebRTC, PHP, iOS, XCode, Android, Eclipse, UIKit, Concurrent Programming, Core Location, SQLite, Javascript.

Professional Experience

‹› **Lead Mobile Developer** @ **Vivocha** | *Startup* | Oct. 2013 – Present
I'm the creator and maintainer of the Vivocha Mobile SDKs codebase.
The SDK provides a proactive Engagement button and a Chat view and only requires 2 lines of code for the basic integration. The new version I'm working on adds *voice* and *video* capabilities using WebRTC.
🏷 #iOS #Android #Objective-C #Java #XMPP #AFNetworking #WebRTC

‹› **iOS Developer** @ **Tiscali** | *Internet Service Provider* | Oct. 2012 – Oct. 2013
I was one of the three-member core team of indoona for iOS – a VoIP app with an integrated Twitter-like social network.
🏷 #iOS #Objective-C #XMPP #SIP #JSON

‹› **iOS** & **Android Consultant** @ **Tiscali** | Apr. 2011 – Feb. 2012

‹› **Lead iOS Developer** @ **Zetesis** | Feb. 2011 – Oct. 2012
I was in charge of the development and release of 4 apps in the App Store.

Education

🎖 **Bachelor's Degree** in **Computer Science** | *University of Cagliari* | 2010
🏷 #C #OOP #Algorithms #Data-Structures #Java #Database #PHP #SQL

Other Projects

🕸 **Contributor** @ **Doubango** | *Open Source* | 2011 – 2012
I wrote some functions for the iOS demo app *iDoubs*.

🖥 **Co-Founder** @ **NetLife** | *Personal Project* | 2010

Other Information

🌐 **Nationality**: Italy

Thank you.
